Info

A unique car as we always hope to find them. Cars from a major manufacturer like BMW with a production run of only 310 units worldwide are a rarity. If we can offer such a car with only 83,000 km and a complete maintenance history, including invoices, manuals, etc., then we are proud of this with good reason.

This 316 Baur was delivered new in Germany in 1993 to Frau Karin Schmitt by BMW Niederlassung Bonn. She handed in her BMW 318 E30 with Wiessman hardtop to receive this new Baur 4-door convertible. The complete history, including takeover details, notes from the family before the order, previous correspondence with Baur, .. is available. The original folder from Baur for this car as well as the manual always remained with the car.

All invoices for maintenance during the life of the car are available. In the meantime, we have imported the car into Belgium and provided it with the Belgian certificate of conformity.

If you are looking for a unique BMW in exceptional condition, this car is definitely worth considering.
