Displacement	2138 cc
Bodytype	Cabriolet
Status	2nd hand
1st registration	09/1966
Mileage	1000 km
Fuel	Gasoline
Color	Red

Info

The Triumph TR4 succeeded the successful TR3A in 1961 with a completely new design designed by Michelotti.

Technically there were many improvements compared to the TR3A, which allowed the car to make sudden progress. Furthermore, the engine also received a larger cylinder capacity.

This TR4 was completely body-off restored a few years ago and no expense was spared to obtain a top car. Everything was also technically overhauled. With a limited mileage of only 1000 km since the restoration, this car is still in perfect condition. The manual gearbox is also equipped with an overdrive.

Come and view this car in our showroom and be convinced by the quality of this car. This will start you off for many fun kilometers.
