Info

The car we present here is a Clio V6 of this first generation with a 230 hp strong engine. It has a very low mileage of less than 16,000 km, which of course translates into the condition of this car. The previous owner recently had a major service including timing belts carried out, as well as new Michelin tires fitted. The car is therefore ready for many kilometers of fun. It is an original German car that was imported to Belgium in 2017. The car has a complete maintenance history with a completed maintenance booklet.
