Info

Very exceptional Mercedes 220 SEb in limousine version. The car is equipped with numerous original luxurious extras. The car was delivered new in Germany to Ingrid Zimmerman, who had a transport company that also provided passenger transport for famous and important people. As a result, the choice will be made for, among other things, rear headrests, diplomat flag holders on the fenders, electric windows, sliding roof, etc.

In these years, among other things, Richard Nixon, Lee Marvin, Willy Brandt, Roman Polanski, have driven this car. The car was later purchased by a fan of Richard Nixon.

We can now offer this beautifully restored car from the third owner. More information on request.
