Info

Very early Volvo P1800S with the beautiful cow horn bumpers.

This beautiful P1800S was completely restored around the year 2000 after which it received a beautiful Dinitrol treatment that it still enjoys to this day. It is therefore a completely rust-free car.

Later in 2017 it received a complete engine overhaul, of which the necessary history is also available. It is equipped with the original overdrive gearbox.
