Info

Complete body-off restoration.

This original American Volvo P1800E was delivered new in the USA and stayed there in the favorable climate until it came to the Netherlands in 2011. There the car enjoyed a complete body-off restoration in which everything was renewed. The current owner bought the car in the Netherlands but never got around to using the car, so it is still in new condition.

A complete photo file of the restoration is available.
