Origin: Original Belgian car

A bit of history

The Opel Speedster was built between 2000 and 2005 in collaboration with Lotus, and it shares its lightweight aluminum chassis with the Lotus Elise. Thanks to the mid-engine layout and low weight (just 870 kg), the Speedster delivers a pure and direct driving experience that is rare today. With its unique combination of German engineering and British sports car DNA, this model has become a sought-after modern classic.
