Model History:

The Talbot Sunbeam Lotus was first introduced in 1979 as a collaboration between the British automotive brand Lotus and Talbot (formerly known as Simca). It was the high-performance version of the Sunbeam, a hatchback already popular for its style and practicality. The Lotus-engineered model quickly gained acclaim for its unmatched performance, thanks to the specially designed 2.2-liter four-cylinder engine. This powerhouse provided the Sunbeam Lotus with remarkable speed and agility.

Beyond being a sporty road car, the Talbot Sunbeam Lotus became a true rally icon. It achieved significant success in various rally championships, including the World Rally Championship. The Lotus engine, combined with the car's lightweight and compact design, delivered exceptional road performance while maintaining the charm of a classic British sports car.

Thanks to its lightweight construction, outstanding performance, and distinctive design, the Sunbeam Lotus became a favorite among car enthusiasts and collectors. Its limited production run of just 2,308 units makes it even more desirable.
