- Transmission: Automatic gearbox
- Color: Silver metallic
- Interior: Dark red leather
- Origin: Originally delivered in the Netherlands – European specification
- Maintenance: Fully dealer-maintained, complete service history available
- Condition: Excellent technical and cosmetic condition

#### Model History:

The Aston Martin DB7, designed by Ian Callum and introduced in 1994, is widely regarded as the car that revitalized the brand. It was the first Aston Martin to be produced on a larger scale, yet it retained the handcrafted charm the marque is known for. The Volante (convertible) version followed in 1996, combining British grand tourer elegance with the joy of open-top driving. This particular model features the original, characterful 3.2-liter six-cylinder engine with Eaton supercharger, delivering a sporty yet refined driving experience.

#### Why This DB7 Volante?

This example stands out not only for its color combination and impeccable maintenance but also for being originally delivered in the Netherlands with a full history. No imports, no surprises – just an honest, correct, and excellently maintained example of a modern classic that is becoming increasingly rare.

Would you like to drive one of the most elegant convertibles of the 1990s, with the comfort of an automatic and the charm of a handcrafted British car? Then contact us today.
