Bodytype	Coupé
Status	2nd hand
1st registration	01/2008
Mileage	13650 km
Fuel	Gasoline
Color	Black

Info

Lotus Europa S (2008) – 13,800 km – Belgian-delivered – Luxury Touring Pack

Some cars you buy with your head. A Lotus, you buy with your heart and with your hands on the wheel. This 2008 Lotus Europa S combines the brand's typically razor-sharp driving feel with a far more luxurious and usable GT approach than you might expect: more comfortable, quieter, and better finished—yet still light, direct, and playful. The Europa S was developed for exactly that purpose: more “daily-usable” than an Elise/Exige, without losing the Lotus DNA.

Why this Europa S stands out

- Only 13,800 km
- Original Belgian-delivered car
- Dealer maintained and in perfect condition
- Black exterior with tan leather interior: classy and timeless
- Luxury Touring Pack: premium leather finish, a more “plush” feel and higher attention to detail
- Air conditioning and genuine GT equipment (leather, carpets, airbags, audio) — this is the “comfort Lotus”
- More practical than you'd think: the Europa S was purposely given more luggage space than the Elise family (154 L)

Brief model history

The Europa S (Type 121) arrived in the mid-2000s as a revival of the Europa name and was positioned as a compact, GT-like two-seater: based on Lotus' “Small Platform” (Elise/Exige), but slightly larger, more accessible and more comfortable—with a stronger focus on finish and everyday usability.

And above all: rare. In total, around 450 Europas were built (S + SE combined; the S itself around ~409, depending on the source).

Driving experience: pure Lotus, with extra “touring”

What you feel immediately: low weight (around 1,000 kg), a mid-engine layout, rear-wheel drive, and that trademark Lotus steering precision. The Europa S uses a 2.0-litre turbo four-cylinder (approx. 200 hp), keeping it quick and responsive without ever feeling heavy.

And that's the key difference versus an Elise/Exige: you get more calmness, more insulation and more comfort—ideal if you also want to do longer journeys.

Luxury Touring Pack: the “luxury” Europa

This car is specified with the Luxury Touring Pack, giving the Europa S that extra premium feel: more leather across the interior panels, richer materials to the touch, and a more upscale overall ambience.

Combined with the tan leather interior, the wooden gear knob (a well-known detail of this pack) and the air conditioning, you get a Lotus you won't just drive on a Sunday morning—but one you'll happily take on a weekend trip as well.

In summary: a truly rare, Belgian-delivered Europa S with ultra-low mileage, full dealer history, and the right options and colour combination—made for the enthusiast who wants both driving pleasure and comfort, with zero compromise at the wheel.
