Color	Red

Info

A Triumph TR6 exactly as you would hope to find one: beautifully finished, fully documented and, above all, freshly restored.

This 1975 TR6 is finished in the particularly stylish Carmen Red, a colour that suits the strong and timeless lines of this British roadster perfectly.

The car has just undergone a complete body-off restoration. The body was fully removed from the chassis and the entire car was rebuilt from the ground up, with great attention paid to both the mechanical components and the overall finish.

Mechanically, no compromises were made. The original matching numbers engine was completely rebuilt. The braking system was renewed, the suspension was overhauled and the interior was fully replaced. The result is a TR6 that not only looks beautiful, but is also mechanically ready to be enjoyed for many years to come.

The entire restoration is documented with an extensive photographic report. In addition, the car comes with invoices for the many new parts that were installed during the restoration. This provides a clear and transparent overview of the work that has been carried out.

The combination of the freshly completed restoration and the matching numbers engine makes this a particularly attractive example. The well-known six-cylinder engine delivers exactly the character for which the TR6 is loved: strong and smooth performance, a wonderful soundtrack and the unmistakable driving experience of a classic British sports car.

Visually, the car is equally convincing. The deep Carmen Red paintwork, combined with the renewed interior and the classic proportions of the TR6, gives the car an elegant yet sporty appearance.

This is not a TR6 that still requires a long list of work from its next owner. On the contrary, the restoration has only just been completed and the car presents today in fresh, carefully finished and mechanically renewed condition.

A beautiful and stylish Triumph TR6 for the enthusiast looking for a matching numbers example, freshly restored from the chassis up, with a fully rebuilt engine and a comprehensive restoration file.
