Bodytype	SUV/4x4
Status	2nd hand
1st registration	12/1981
Mileage	107680 km
Fuel	Gasoline
Color	Yellow

Info

Land Rover Series III Stage One V8 – An Icon with the Right Engine

A classic Land Rover is an icon in its own right. But when it comes to an original Stage One V8, the story becomes even more interesting.

The Stage One V8 represents a fascinating chapter in Land Rover history. It combines the rugged, pure character of the classic Series Land Rover with the legendary Rover V8. An engine that not only provides considerably more power and refinement, but above all delivers that unmistakable V8 soundtrack and driving experience.

This particular example is presented in remarkably original and completely rust-free condition. It is not a heavily modified vehicle, but an authentic Land Rover that has retained its original character throughout the years. The vehicle was repainted at some point in its life, but otherwise remains beautifully original.

From a practical point of view, this Stage One is equally appealing. It is equipped with no fewer than 10 seats, retaining the distinctive character and versatility of the classic long-wheelbase Land Rovers. At the same time, it is eligible for registration as a historic vehicle.

The combination of the classic Series bodywork, robust four-wheel-drive system and, above all, the iconic V8 engine makes the Stage One one of the most interesting versions within the Series family today. It also represented an important transition between the traditional Series models and the later Land Rover 110 and Defender.

A particularly enjoyable classic for anyone looking for character, space and engineering with a story. Ten seats, a V8 under the bonnet and the timeless silhouette of one of the most recognisable off-road vehicles ever built.

A true Land Rover – but with eight cylinders.
